

Attention Regarding the Swine Flu (H1N1 Flu)

The swine flu epidemic is breaking out.

If you meet the following conditions, please wear a medical mask immediately and let our staff know.

We truly appreciate your cooperation in order for us to protect our patients from the swine flu.

- 1. You have a fever more than 38 (100)**
- 2. You have a symptom of acute respiratory syndromes such as runny nose, stuffy nose, sore throat, and cough.**
- 3. You have stayed or traveled to the place where the swine flu is raging throughout or contacted with the person caught the swine flu within 7 days.**
